

TX DUO Full Height Turnstile

quality
modern
competitive

digicon
beyond technology.

CHARACTERISTICS

Ideal for environments that require trust, TX DUO is made of high strength steel tubes: the structure and the arms provide greater security against tampering and vandalism. The device also offers full integration with market access controllers and features two rotating shafts with Digicon's engine and control system, well known for its robustness and high performance.

Indicative LEDs available as an optional item (1) and internal lighting (2).
Arms in stainless steel at the point where users touch the equipment.

Rubberized bottom arm (3), provides impact protection to the user.
Treatment and finishing allow for outdoors installation.

DIMENSIONS

TX DUO is 2,26m wide, 2,23m high and 1,35m deep, representing 25% space saving compared to conventional full height turnstiles.

2230mm

OPTIONS

Available in the following finishes:

- 304 Stainless Steel brushed (standard model)
- Steel with epoxy powder paint in gray
- Carbon steel with epoxy paint
